

# Want to Earn Money Working from Home?

**Employer:** EatYourBooks.com is a start up internet business based in Wayland, which plans to launch in early summer. The site will allow cookbook enthusiasts to search all the recipes in the cookbooks they own. The online index will allow members to search by book, author, recipe type, major ingredients, ingredient type, occasion, meal/course, etc. Members will need to own the cookbooks to cook the recipe as no quantities or methods will be listed.

**Employment opportunity:** EatYourBooks.com is looking for part-time help to do data entry of recipe titles, key ingredients and to categorize the recipes. We will provide a runtime version of an Access database which will be pre-populated with ingredients and all categories. So the only typing involved will be recipe titles – the rest is just clicking on choices from lists. We will provide you with the cookbook (which will be returned with the database).

**Whether this is the right opportunity for you:** You will need to have access to a PC that you can download the database to. Unfortunately at the moment we cannot run Access on Apple Macs, unless you have installed a Windows partition. You need spare time to get the work done – but the big advantage of this work is you can pick the time and you can do it from home. Books will be delivered to and collected from you weekly so we need each book completed in a week or less.

**Rates:** We will be paying by the recipe ingredient – so the faster you are, the more you earn. Accuracy of course is also important – we will be proof-reading your work before you get paid. We anticipate the rate being between \$8 and \$12 per hour, depending on the speed of data-entry and the complexity of the book.

**Contact:** If you are interested or you want more details, contact Jane Kelly at [Jane@eatyourbooks.com](mailto:Jane@eatyourbooks.com) or call 508-308-2066.
