

## **Wayland Community Pool**

### **Facility Fact Sheet**

- Approximately 25,000 sq. ft. pool and facilities built on existing pool land parcel (next to high school)
- Plans for pool include 8-10 regulation lanes, diving well with 1 and possibly 3 meter diving boards, 20 ft of deck space surrounding pool, new or refurbished building for locker rooms, administrative offices and multi-purpose room.
- Pool is designed with a shallow entry suitable for children, seniors and therapy use.
- Expanded spectator viewing area for meets and events
- Designated parking spaces around the building; majority of parking will continue to be shared with high school
- Removable roof structure for open-air summer memberships
- A significantly improved exterior look; trees and bushes will create a buffer around the building
- Cost to build is approximately \$3.5 million and it is planned to be privately funded
